Work Sheet 2

**SDG
LINK**

No issue exists in isolation. Use this worksheet to think about the different way your topic links to other things that are happening in the world. Although you have chosen one topic, all the SDGs link together so you may find some interesting ways to link it to the bigger picture.

Choose five of the SDGs from your spider diagram above to explain in more detail how these things connect. Can you find any statistics, examples or pieces of information to add to this?

SDG	How does this link?
