

ERNE Programme- Provisional Results

**June 2020 – February 2023
(33/36 months)**

19th May 2023

ERNE Programme Framework and Key Results

CONTEXT

COVID-19

POVERTY

TRADE & MARKET

FLOOD

DROUGHT

CONFLICT

INTERNALLY DISPLACED

Increasing the scale, efficiency and effectiveness of nutrition emergency response

1,238,771 individual participants

829 participant organizations

PILLAR 1
LIFE SAVING RESPONSES

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES

304 Health Facilities supported

73,979 children under five admitted for treatment of Severe Acute Malnutrition

91,622 children under five admitted for treatment of Moderate Acute Malnutrition

90% Severe Acute Malnutrition recovery rate

812,513 children under five reached through primary healthcare consultations

DELIVERING MULTI-PURPOSE CASH TO MEET BASIC NEEDS

24 responses implemented

30,610 of households reached

LOCAL CONTEXT ANALYSIS TO ANTICIPATE SHOCKS

PREPARING AND RESPONDING TO SPIKES IN CASELOADS

215 assessed baseline- endline using a comprehensive Health Facility Assessment

157 Health Facilities recording improvement in their capacity at endline

275 Health Facilities implementing CMAM Surge

75 Health Facilities implementing Health Surge 

PREPARING AND RESPONDING TO FOOD INSECURITY

5 multi hazard risk monitoring systems

33 programme areas with Early Warning System

PILLAR 2
PREPAREDNESS AND LOCAL CAPACITY TO RESPOND

PILLAR 3
PREVENTING MALNUTRITION

PROMOTING HEALTH & NUTRITION BEHAVIOURAL CHANGE AMONG HOUSEHOLDS WITH CHILDREN UNDER 5

16,081 women participating in Mother to Mother Support Groups

2,777 men participating in Father Support Groups

3,349 households with children under two received WASH kits 

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES- CMAM SUMMARY

PILLAR 1
LIFE SAVING RESPONSES

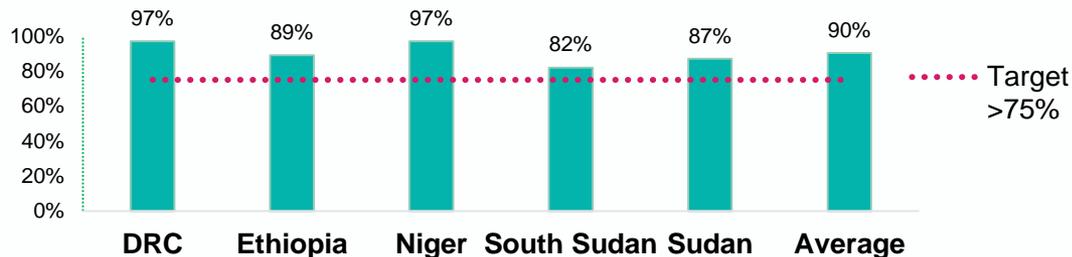

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES

304 Health Facilities supported
73,979 children under five admitted for treatment of Severe Acute Malnutrition
91,622 children under five admitted for treatment of Moderate Acute Malnutrition
90% Severe Acute Malnutrition recovery rate
812,513 children under five reached through primary healthcare consultations

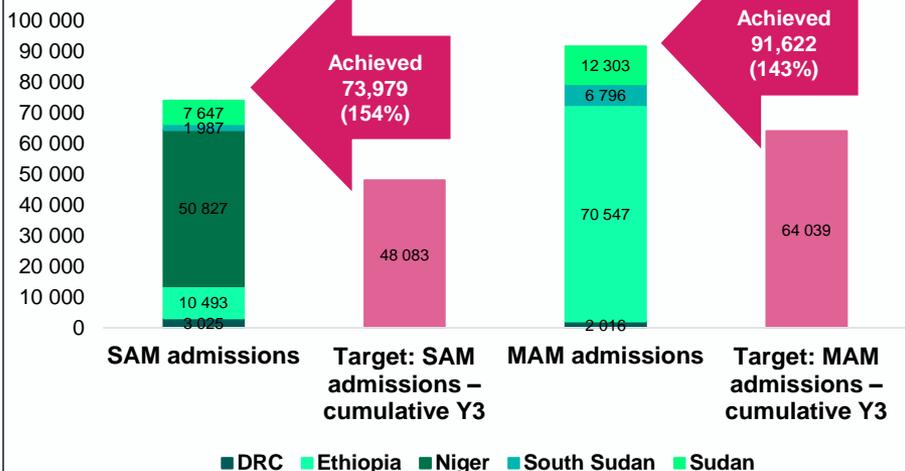

DELIVERING MULTI-PURPOSE CASH TO MEET BASIC NEEDS

24 responses implemented
30,610 of households reached

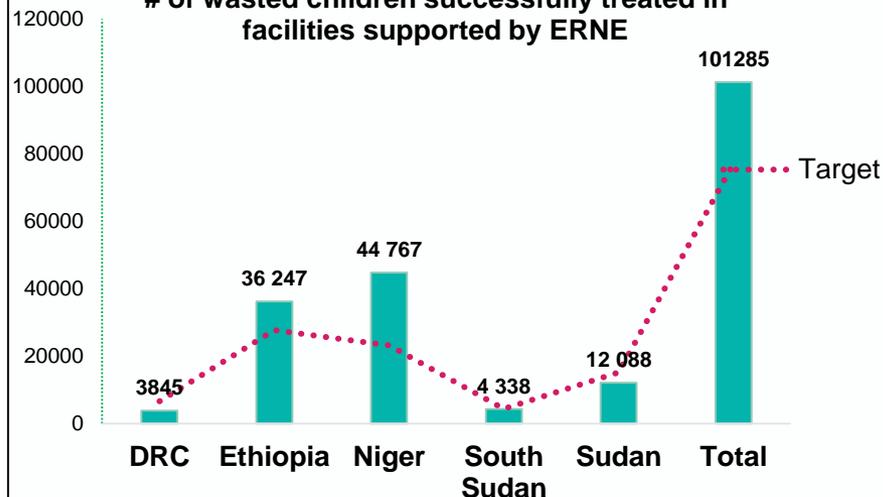

Severe Acute Malnutrition Recovery Rate

CMAM Admissions against targets

of wasted children successfully treated in facilities supported by ERNE

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES- CMAM TIME-LAPSE

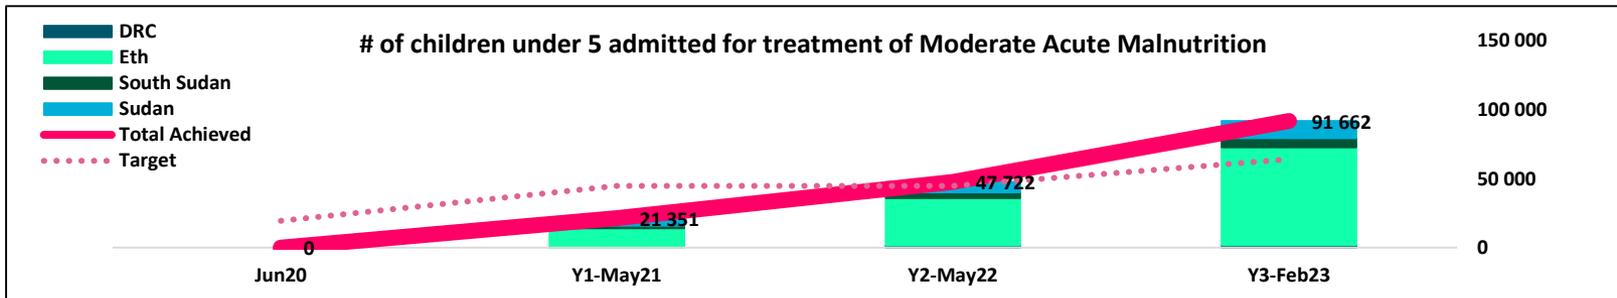

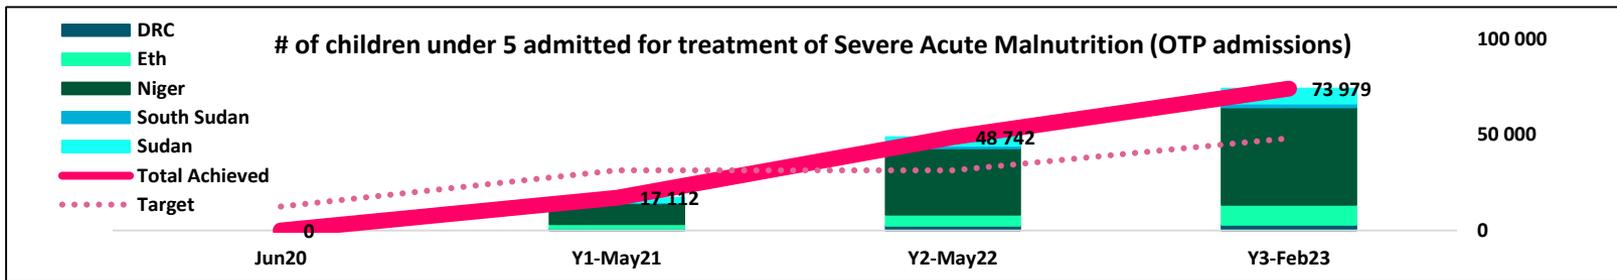

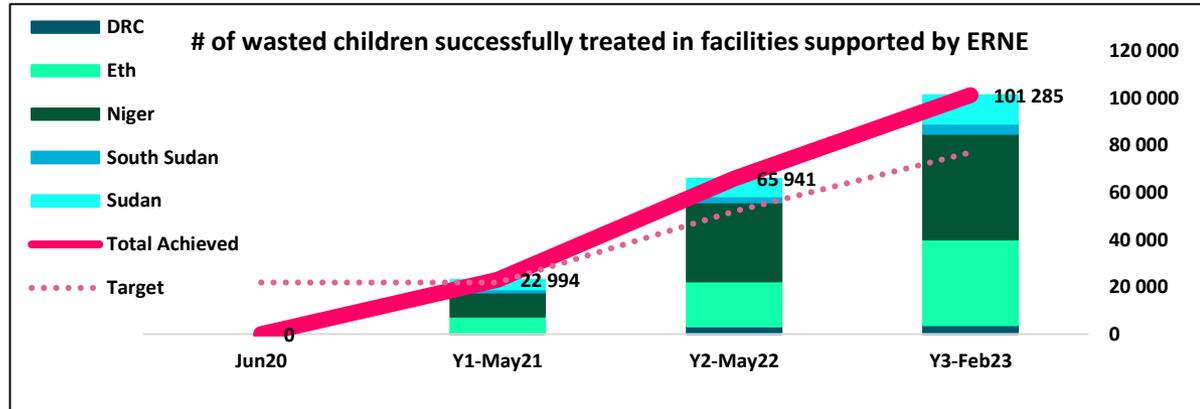

PILLAR 1
LIFE SAVING RESPONSES

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES

- 304** Health Facilities supported
- 73,979** children under five admitted for treatment of Severe Acute Malnutrition
- 91,622** children under five admitted for treatment of Moderate Acute Malnutrition
- 90%** Severe Acute Malnutrition recovery rate
- 812,513** children under five reached through primary healthcare consultations

DELIVERING MULTI-PURPOSE CASH TO MEET BASIC NEEDS

- 24** responses implemented
- 30,610** of households reached

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES- MALNUTRITION SURVEILLANCE

PILLAR 1
LIFE SAVING RESPONSES

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES

304 Health Facilities supported

73,979 children under five admitted for treatment of Severe Acute Malnutrition

91,622 children under five admitted for treatment of Moderate Acute Malnutrition

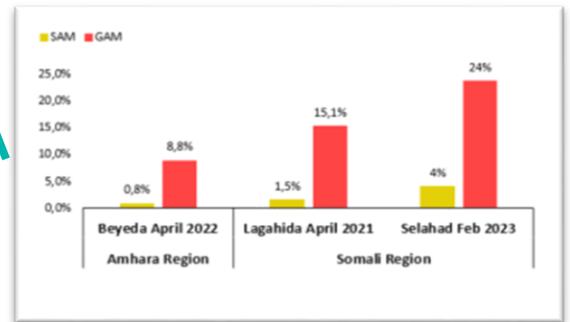

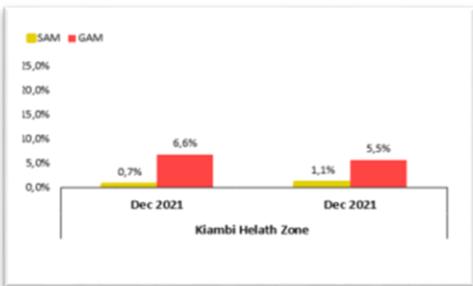

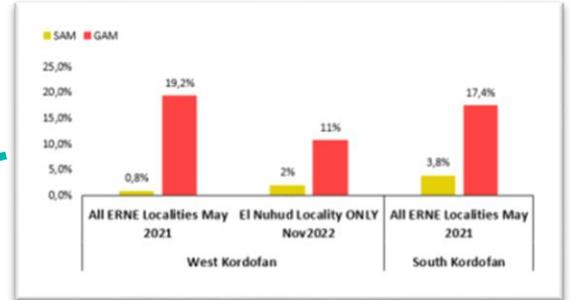

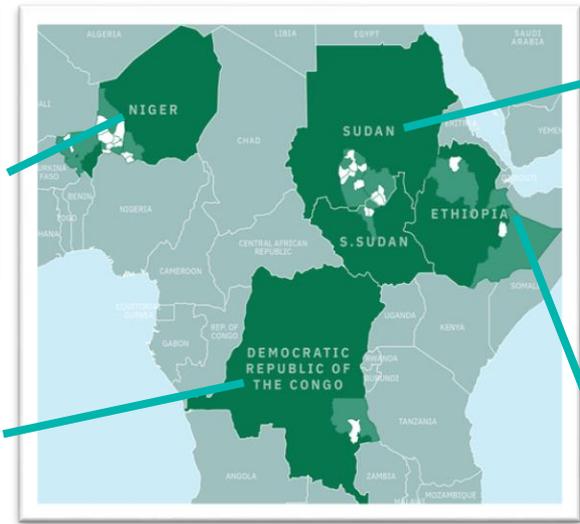

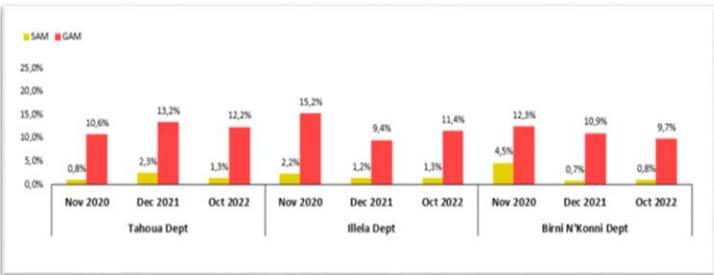

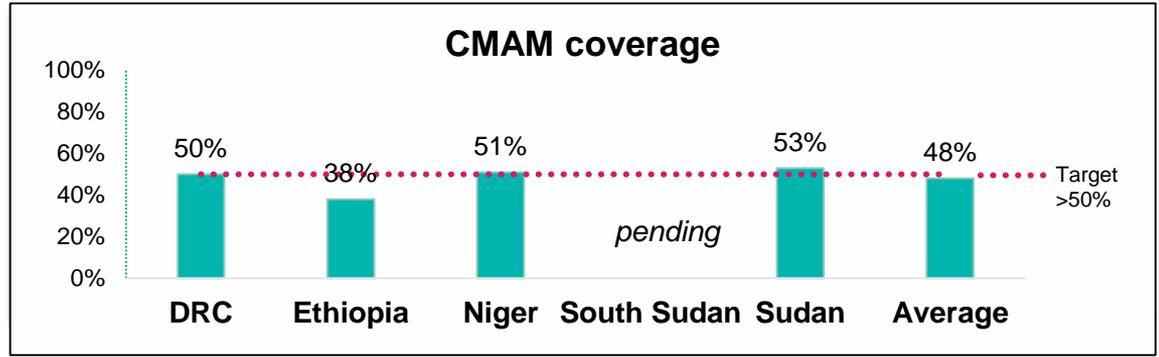

90% Severe Acute Malnutrition recovery rate

812,513 children under five reached through primary healthcare consultations

DELIVERING MULTI-PURPOSE CASH TO MEET BASIC NEEDS

24 responses implemented

30,610 of households reached

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES- HEALTH

PILLAR

1

LIFE SAVING RESPONSES

INCREASED ACCESS TO QUALITY HEALTH AND NUTRITION SERVICES

DELIVERING MULTI-PURPOSE CASH TO MEET BASIC NEEDS

304 Health Facilities supported

PREPARING AND RESPONDING TO SPIKES IN CASELOADS- HEALTH FACILITY CAPACITY

PREPARING AND RESPONDING TO SPIKES IN CASELOADS- HEALTH FACILITY CAPACITY

PREPARING AND RESPONDING TO SPIKES IN CASELOADS- CMAM SURGE & HEALTH SURGE

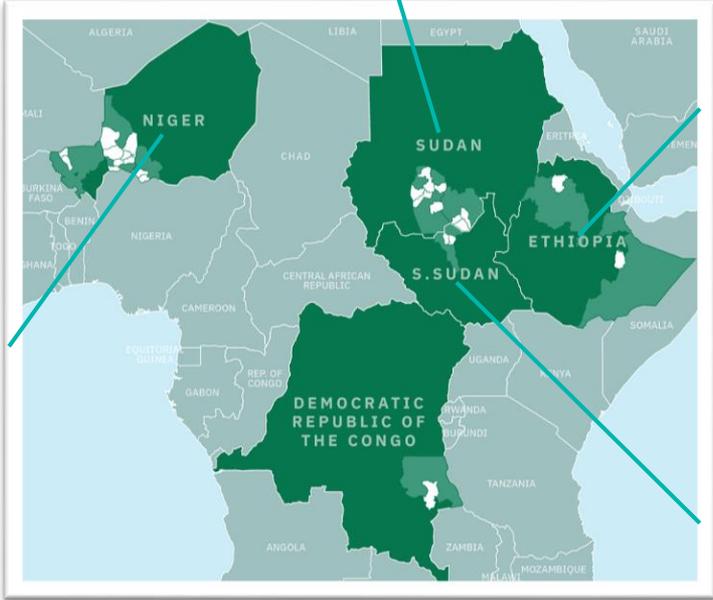

PILLAR 2
PREPAREDNESS AND LOCAL CAPACITY TO RESPOND

LOCAL CONTEXT ANALYSIS TO ANTICIPATE SHOCKS

PREPARING AND RESPONDING TO SPIKES IN CASELOADS	PREPARING AND RESPONDING TO FOOD INSECURITY
<p>215 assessed baseline- endline using a comprehensive Health Facility Assessment</p> <p>157 Health Facilities recording</p> <p>275 Health Facilities implementing CMAM Surge</p> <p>75 Health Facilities implementing Health Surge</p>	<p>5 multi hazard risk monitoring systems</p> <p>33 programme areas with Early Warning System</p>

11 Health Facilities supported with CMAM Surge

91 Health Facilities supported with CMAM Surge
12 Health Facilities supported with Health Surge

173 Health Facilities supported with CMAM Surge
63 Health Facilities supported with Health Surge

1 PILOT Health Facility supported with CMAM Surge

PREPARING AND RESPONDING TO FOOD INSECURITY

PILLAR 2
PREPAREDNESS
AND LOCAL
CAPACITY TO
RESPOND

LOCAL CONTEXT ANALYSIS TO ANTICIPATE SHOCKS

PREPARING AND RESPONDING TO SPIKES IN CASELOADS

- 215** assessed baseline- endline using a comprehensive Health Facility Assessment
- 157** Health Facilities recording improvement in their capacity at endline
- 275** Health Facilities implementing CMAM Surge
- 75** Health Facilities implementing Health Surge

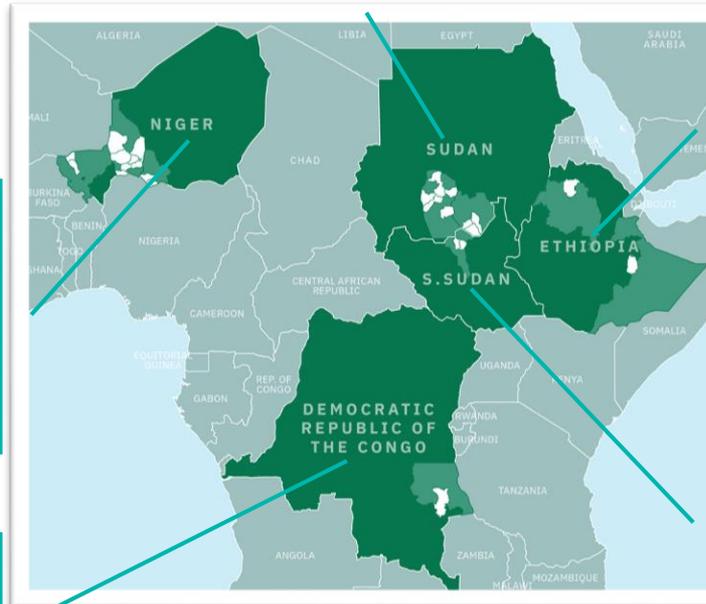

PREPARING AND RESPONDING TO FOOD INSECURITY

- 5** multi hazard risk monitoring systems
- 33** programme areas with Early Warning System

2 Early Actions
2 RR
1 programme area with Early Warning System

3 Early Actions
3 Rapid Responses
9 programme areas with Early Warning System
2 implementing partners

2 Rapid Responses
17 programme areas with Early Warning System

3 Early Actions
5 Rapid Responses
5 programme areas with Early Warning System

1 Early Actions
3 Rapid Responses
1 programme areas with Early Warning System

PROMOTING HEALTH & NUTRITION BEHAVIOURAL CHANGE AMONG HOUSEHOLDS WITH CHILDREN UNDER FIVE

PILLAR
3
PREVENTING
MALNUTRITION

PROMOTING HEALTH & NUTRITION BEHAVIOURAL CHANGE
AMONG HOUSEHOLDS WITH CHILDREN UNDER FIVE

16,081

women participating in Mother to Mother Support Groups

2,777

men participating in Father Support Groups

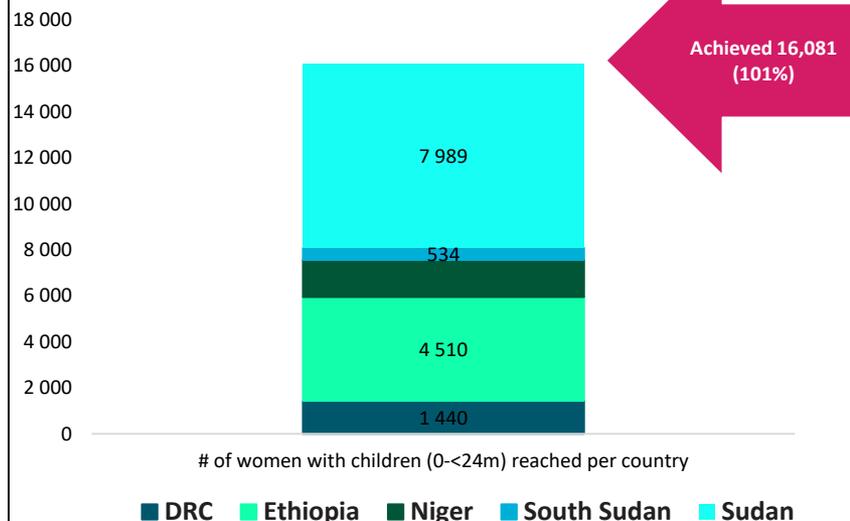

3,349

households with children under two received WASH kits

Mother to Mother Support Groups beneficiaries

PROMOTING HEALTH & NUTRITION BEHAVIOURAL CHANGE AMONG HOUSEHOLDS WITH CHILDREN UNDER FIVE- TIME-LAPSE

PILLAR 3
PREVENTING MALNUTRITION

PROMOTING HEALTH & NUTRITION BEHAVIOURAL CHANGE AMONG HOUSEHOLDS WITH CHILDREN UNDER FIVE

16,081

women participating in Mother to Mother Support Groups

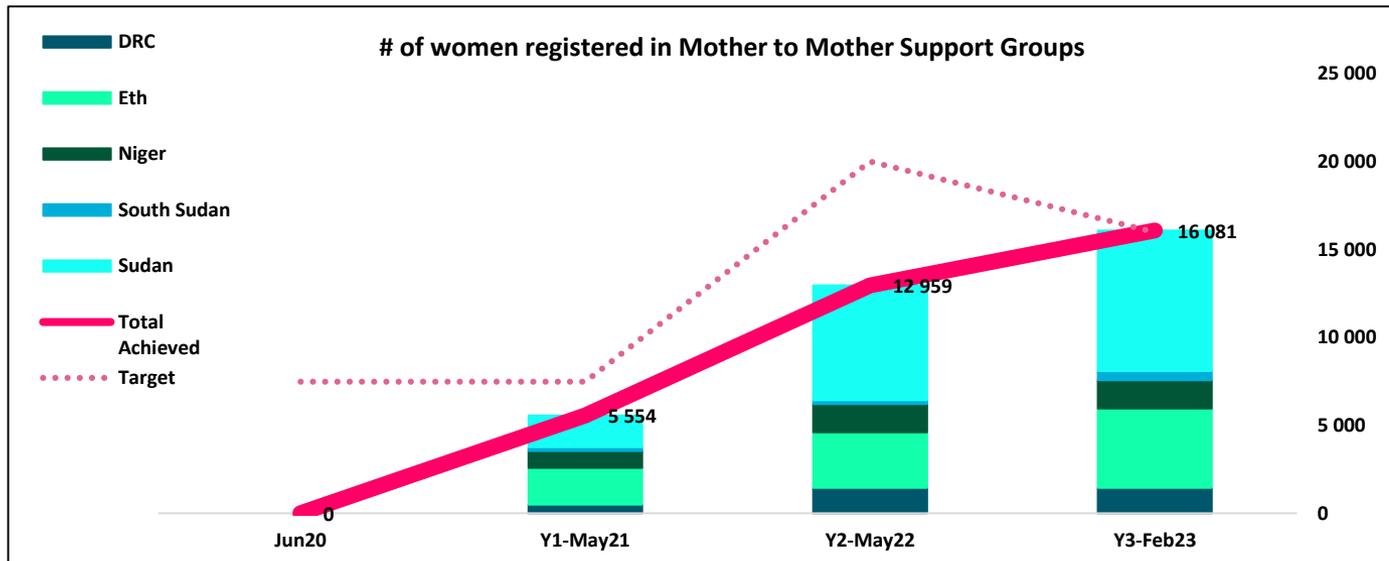

2,777

men participating in Father Support Groups

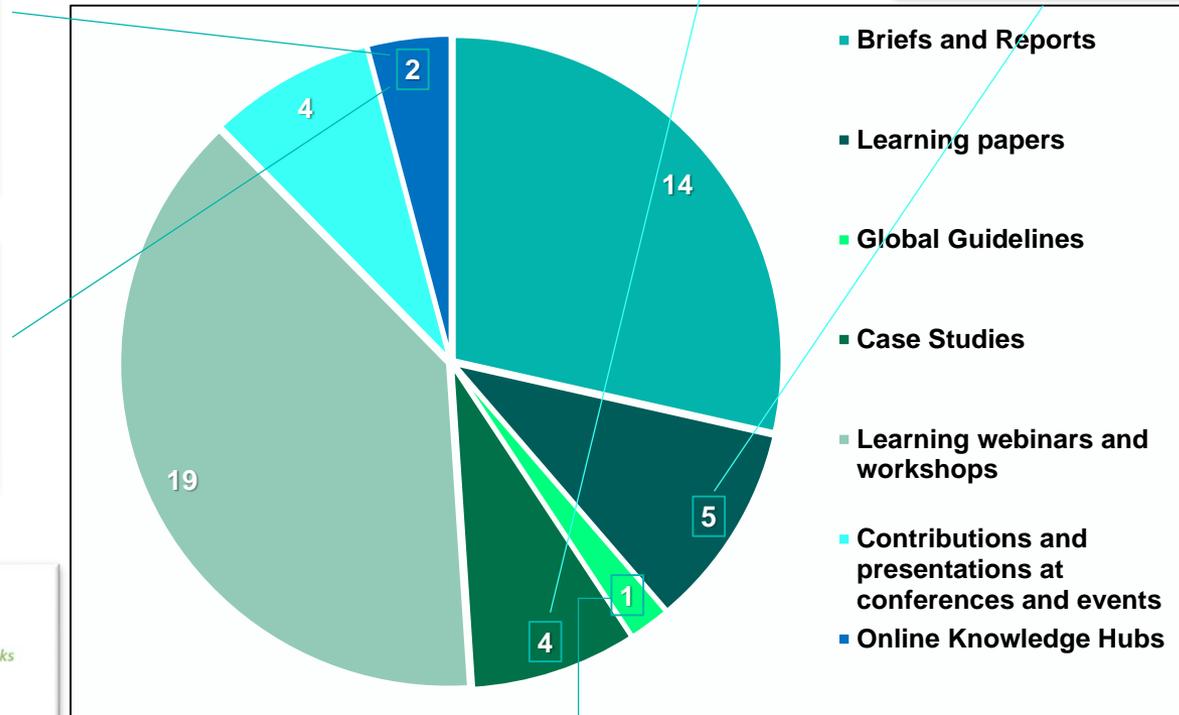

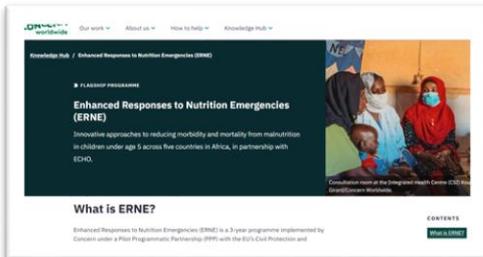

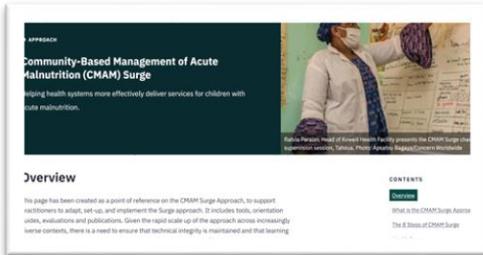

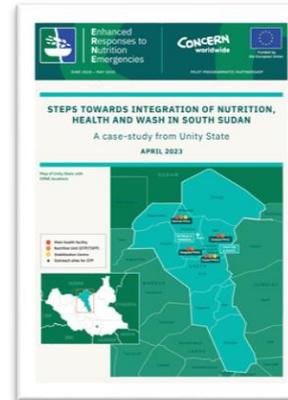

3,349

households with children under two received WASH kits

Learning

ERNE programme evidence presented in a series of public reports, conference presentations and policy briefs produced by Concern and ECHO

Surge Approach:
Strengthening local capacity to manage peaks and increased service demands in Health Facilities

Updated Orientation Guide
May 2023
